

## **Summary of Milestone 3 meeting review with Prof. Petkovic and plans for further development**

**Team number:** 4

**Meeting date:** 11/13/2024

### **Summary of feedback on UI (record all pages that need revision):**

- tutoring post should have a title with the message as they may have multiple posts
- send is right close is left on message
- make cards the same across the homepage and search results
- unique title for tutor to express themselves for each tutor post -> need to add in make a post
- uploads together in registration at the bottom
- add disclaimer that post needs to be approved
- underline text in login create acct + forgot pass links
- make create account button same as login button
- welcome message for dashboard
- remove recover profiles
- change dashboard title buttons to - my posts, received messages

### **Summary of feedback on code and architecture:**

- id to the post not the tutor as tutor can have more than one post
- add the video button
- add names and description in comment header for all files
- better comments
- script tag to linked js

### **Summary of feedback on github usage:**

- be descriptive in commit messages

### **Summary of feedback on DB:**

- field for title of tutor post
- change TutorProfiles table name to TutorPosts in DB (tutor profiles sounds like the registration information saved (leave as RegisteredUsers), while tutor posts is the information saved from a tutor making a post after they are already registered)

### **Summary of feedback on teamwork and risk management:**

**Confirm that you have done architecture review to check that developers adhere to MVC pattern, coding style, minimal agreed documentation etc. Record if OK or list the issues found. Request developers follow up on corrections and follow up later by doing code reviews**

- Need more documentation (names and description in comment headers)

**List below agreed upon P1 list of features for final delivery which constitute product plan. NOTE: after this meeting the team focuses solely on this P1 list of features, e.g. the development is in “feature freeze mode”. All listed P1 features (no more no less) MUST be delivered in usable way, free of bugs and will be used for grading**

Priority 1:

UnregisteredUsers

1. Users shall be able to register
2. Users shall be able to browse the tutors
3. Users shall be able to view tutor info
4. Users shall be able to search the tutors by subject and tutor name
5. Users shall be able to search the tutors by SFSU class name/number
6. Users shall be able to sort tutors by price range
7. Users shall be able to view an about page of the team members

RegisteredUsers

8. RegisteredUsers shall inherit all the capabilities of unregistered users
9. RegisteredUsers shall be able to apply to become a tutor
10. RegisteredUsers shall be able to send messages to tutors
11. The RegisteredUsers' dashboard shall display messages received from tutees
12. The RegisteredUsers' dashboard shall display any of the user's tutor posts
13. RegisteredUsers shall be able to login

Admins

14. Admins shall inherit all the capabilities of registered users
15. Admins shall be required to approve or reject tutor postings before they go live
16. Admins shall be able to remove postings
17. Admins shall be able to remove users

**Any other comments and issues**

**Check Point (CP) if given, DUE:**

None given
